

DFS SERIES

Experience the power of deep, immersive sound with the TruAudio DFS powered subwoofer. Featuring a 12-inch driver within a sealed enclosure and down-firing design, this subwoofer delivers robust bass that seamlessly integrates into any home theater or music system. Available in both black and white finishes, the TruAudio DFS is designed to complement your space with elegance.

Equipped with a powerful 500-watt internal amplifier, the DFS subwoofer ensures your movies, music, and games are enhanced with rich, resonant bass. Its combination of advanced technology and sleek aesthetics makes the TruAudio DFS Powered Subwoofer a perfect addition to any entertainment setup.

DFS-12BK
