

A75

The A75 is a great sounding digital amplifier that has been engineered with performance and reliability in mind. It features the most advanced protection circuitry available in the market, while boasting 75 watts of power across each of its 12 channels.

With its digital architecture the A75 sports a smaller cleaner chassis, runs cooler and uses less power than traditional amplifiers. It's perfect for customers who demand amazing audio and unprecedented reliability.

A75

Channels:	12 channels, 6 zones
Power Output, Continuous:	75 watts/ch @ 8Ω 80 watts/ch @ 4Ω
Bridged Power Output:	150 watts/ch @ 8Ω
Power:	AC 100-120V 60Hz / AC220-240V 50 Hz Auto Switching
Inputs:	2-Global Ins (BUS), 2-Global Outs (BUS), 6-Local Inputs
Impedance:	4-8Ω
Dimensions:	3.4" (86mm) H, 19" (483mm) W (with rack ears) 14.7" (373mm) D
Weight:	20 lbs
Rack Mount:	Includes rack ears
Certifications:	CE, CB, NRT, FCC, CE-EMC, ERP
Family:	 UNIVERSAL
