ELITE SERIES

The Elite series brings movie theater sound to the comfort of your own home. The new in-wall Elite Series features TruAudio's signature 6.5" red carbon drivers paired with a 1" titanium tweeter and is complimented with a low-profile black paintable grill to virtually disappear in any theater setting. TruAudio's patented TruGrip™ toolless technology and a 25% smaller form factor, compared to the legacy B23's, provide a quick and effortless installation.

ELITE26
