

Red Mountain Sub

Custom home theater subwoofer

Red Mountain Sub

A U D I O

Custom-made subs, named after the spectacular red cliffs in St. George, Utah where our facility is located. TruAudio knows that when you design and build custom sub woofers, they need to rumble the earth. With two models available, you can choose the one that best fits your application. The deep bass frequencies of our Red Mountain Subs will amaze you. Feel the power.
