

ULTRASCAPE10

The TruAudio UltraScape10 is an advanced outdoor landscape speaker system designed for exceptional audio performance in any outdoor setting. This system includes a powerful 10" burial subwoofer and 4" satellite speakers, delivering deep, rich bass and clear, immersive sound. The UltraScape10 is versatile, supporting up to two 10" subwoofers and eight 4" satellite speakers, allowing for scalable audio coverage across larger areas. Optimized for efficiency, the UltraScape10 can be powered by most 2-channel amplifiers, like a VSSL A.1x or a TruAudio T100, ensuring seamless integration and superb sound quality for all your outdoor audio needs.
